<sup>1/</sup> Receipts exclude reopened appeals but include appeals involved in CMS Hospital Settlements.

<sup>2/</sup> The number of appeals adjudicated each fiscal year reflects receipts from multiple fiscal years.

<sup>3/</sup> Dispositions exclude remands.

<sup>4/</sup> OMHA Dispositions reflect appeals removed by all types of adjudicators, and by all initiatives except "Appeals combined for efficiency," "QIC demo - remands for resolution," and "CMS Hospital Settlements."

<sup>5/</sup> Some FY14 dispositions are attributable to Scooter Store dismissals.

<sup>6/</sup> FY14 through FY18 reflect changes in methodology to include combined appeals. Discrepancies between Level 2 and Level 3 RAC receipts are largely attributable to these changes in methodology.

<sup>7/</sup> FY18 Qtr 3 includes the majority of appeals received through June 30, 2018. Q3 receipts appear high because some were held until those which needed to be loaded into MAS (versus eCAPE) were identified - to avoid 2nd entry actions.

<sup>8/</sup> Receipts and dispositions have been updated due to appeal adjustments such as combinations, deletions, and/or corrections.

<sup>9/</sup> Appeals combined for efficiency result in one disposition for a group of combined appeals. This line accounts for the remainder of received appeals that were combined into single appeals within the disposition counts.

<sup>10/</sup> Initiative dispositions not reflected separately within the table are counted in "OMHA Dispositions" (as 1 disposition if multiple appeals were combined), and "Received appeals combined for efficiency" (remainder of groups of appeals combined for efficient disposition).
